### Technology Teaming

"Howell Laboratories of Bridgton has teamed with Azienda Chimica Genovese of Genoa, Italy, to develop state of the art antifouling equipment used on the DDG-51 class of destroyers being built by Bath Iron Works and Ingalls Shipbuilding, and the LPD-17 class of amphibious transports being built by Bath Iron Works and Litton Avondale."

"Howell is the leading supplier of air drying equipment used on all surface combat ships of the Navy and the supplier of water purification equipment for the LPD-17 class. ACG Marine supplies antifouling equipment to the Italian Navy and to merchant ships worldwide."

*News Article, Portland Press-Herald, 1 March 2001.*

Howell Laboratories, Inc, located in Bridgton, Maine and a Navy supplier since 1964, is an Employee Owned Company.
